EXPERIENCE

Award-winning graphic designer in print and Web design. Over 9 years of experience in developing brand and corporate identities, Web sites, advertisements, and print collaterals for clients in government, corporate, technology, and health and social services industries. Hai uses his talent for graphic design with his experience in Web programming and Web usability to develop Web content that fuses style with functionality.

Web Site Development

Plans, designs, and develops Web sites • Analyzes project goals and reviews site content • Develops site structure and information architecture • Designs page templates and develops corresponding style guides • Creates site layouts and codes page templates in HTML, CSS, ASP.NET, and JavaScript • Develops site file structure and file name scheme • Familiar with accessibility issues and Section 508 compliance

Graphic Design

Creates print and Web graphics • Designs, lays out, and prepares documents for production, including logos, postcards, business cards, books, posters, oversized displays, and brochures • Develops concepts for Web-based ads, including e-cards, banner ads, Web site designs, and Flash presentations
